the 1990s, the number of publications on the topic has increased steadily, and the number of authors has increased from 1 to 100.

There are a number of reasons for the increase in research on the topic. One reason is the growing awareness of the importance of the topic. Another reason is the increasing availability of data and methods for studying the topic. A third reason is the increasing interest in the topic by the general public.

The first reason for the increase in research on the topic is the growing awareness of the importance of the topic. In the 1990s, there was a growing awareness of the importance of the topic. This was due to a number of factors, including the increasing availability of data and methods for studying the topic, and the increasing interest in the topic by the general public.

The second reason for the increase in research on the topic is the increasing availability of data and methods for studying the topic. In the 1990s, there was a growing awareness of the importance of the topic. This was due to a number of factors, including the increasing availability of data and methods for studying the topic, and the increasing interest in the topic by the general public.

The third reason for the increase in research on the topic is the increasing interest in the topic by the general public. In the 1990s, there was a growing awareness of the importance of the topic. This was due to a number of factors, including the increasing availability of data and methods for studying the topic, and the increasing interest in the topic by the general public.

The fourth reason for the increase in research on the topic is the increasing interest in the topic by the general public. In the 1990s, there was a growing awareness of the importance of the topic. This was due to a number of factors, including the increasing availability of data and methods for studying the topic, and the increasing interest in the topic by the general public.

The fifth reason for the increase in research on the topic is the increasing interest in the topic by the general public. In the 1990s, there was a growing awareness of the importance of the topic. This was due to a number of factors, including the increasing availability of data and methods for studying the topic, and the increasing interest in the topic by the general public.

The sixth reason for the increase in research on the topic is the increasing interest in the topic by the general public. In the 1990s, there was a growing awareness of the importance of the topic. This was due to a number of factors, including the increasing availability of data and methods for studying the topic, and the increasing interest in the topic by the general public.

The seventh reason for the increase in research on the topic is the increasing interest in the topic by the general public. In the 1990s, there was a growing awareness of the importance of the topic. This was due to a number of factors, including the increasing availability of data and methods for studying the topic, and the increasing interest in the topic by the general public.

The eighth reason for the increase in research on the topic is the increasing interest in the topic by the general public. In the 1990s, there was a growing awareness of the importance of the topic. This was due to a number of factors, including the increasing availability of data and methods for studying the topic, and the increasing interest in the topic by the general public.

The ninth reason for the increase in research on the topic is the increasing interest in the topic by the general public. In the 1990s, there was a growing awareness of the importance of the topic. This was due to a number of factors, including the increasing availability of data and methods for studying the topic, and the increasing interest in the topic by the general public.
